

FOR IMMEDIATE RELEASE

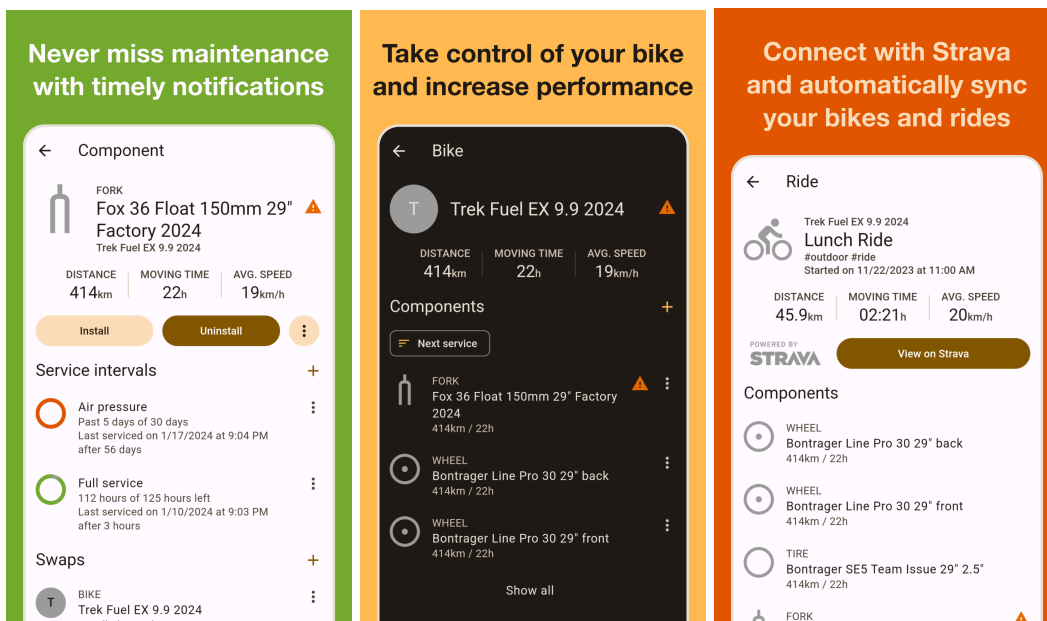

ProBikeGarage, the leading app for monitoring your precious bike, has just received a fantastic update

Mobile World Congress, Barcelona – Feb 26, 2024

[ProBikeGarage](#), the go-to mobile app for cycling enthusiasts seeking maximum control over their bikes, proudly announces the release of its 2.0 version, delivering an exceptional upgrade that redefines the experience of monitoring and managing your bicycles.

Key features of ProBikeGarage

1. **Never miss maintenance with timely notifications.** Receive automatic notifications when your bike and components require some maintenance. For example, when your suspension fork reaches 100 hours of use, your waxed chain passes 400 km, or your tires achieve 5,000 km. Maximize your performance and reduce costs.
2. **Track your bikes setups and monitor all your components.** Register all changes and part upgrades, compare durability and performance, record completed services, log your visits to the local shop, compare spare prices on available online stores, etc. Take control of your bike and cycling experience, and get the most out of it.
3. **Connect with your Strava account for seamless integration.** Synchronize your bikes and activities from Strava and get real-time updates after every ride, so your bike is always ready for the next time.

Why cyclists will love ProBikeGarage 2.0

The latest update reflects ProBikeGarage's commitment to providing cyclists with a comprehensive tool for managing their bikes. With a completely redesigned user interface and experience, cyclists can now maximize the outcomes of the exclusive features of ProBikeGarage to enhance their cycling experience.

What are cyclists saying about ProBikeGarage

"Easy to keep track of everything. On trainer or outside, it keeps track automatically of everything" – user on the App Store.

"Can save you lots of money and unnecessarily worn drivetrain parts. I cut my chain wear in half since I started using it." – user on Google Play.

"Love the upgrade, brilliantly done!" – user on Google Play.

"It works really well for keeping track of chains and wax intervals. Does well with tracking wheels, tires, cassettes, and other items that move between bikes or change on the same bike."
– user on the App Store.

"Makes cycling life so much easier." – user on Google Play.

Download ProBikeGarage

ProBikeGarage 2.0 is already available for download for iOS devices on the App Store and Android devices on Google Play.
